

TRIPHASE COOLING CONTROL TRAINING SET

Triphase Cooling Control Training Set is produced to show the practical application and operating logic of the system. The set is designed in accordance with the curriculums of universities, technical high schools and all institutions providing technical education. The content of the training set is suitable for both advanced and basic technical education. The equipments can be observed from every angle, enabling the user to both identify the equipments and observe the operating logic. Electrical safety measures are taken according to regulations. The platform of the system is located on easy-to-move and lockable wheels. Entire panel is made of durable materials.

**TRAINING SET****TRAINING KIT EQUIPMENT**

- Frequency convertor inverter
- Emergency stop button
- Electrical safety equipment
- Star - Delta connection switch 0-1
- On-Off switch
- Defrost resistance
- Switch group
- Thermal relay
- Time relay
- Inverter(1.5kW)
- Low and high pressure switch
- Signal lights
- Pump
- Fan
- Dimmer
- Voltmeter
- Ammeter
- Termostat
- Network analyser
- Flow switch
- Oil-water pressure switch
- Solenoid valve
- Basic control elements
- Circulation pump
